

Pacific Asia Workshop on Intelligence and Security Informatics
(PAISI 2008)

Workshop Website: <http://isi.se.cuhk.edu.hk/>
June 17, 2008, Taipei, Taiwan

Important Dates

- Submission due February 20, 2008
- Notification of acceptance March 14, 2008
- Camera-ready copy due March 28, 2008

Workshop Scope

Intelligence and Security Informatics (ISI) is concerned with the study of the development and use of advanced information technologies and systems for national, international, and societal security-related applications. The annual IEEE International Conference series on ISI was started in 2003. In 2006, the Workshop on ISI (<http://isi.se.cuhk.edu.hk/2006/>) was started in Singapore in conjunction with the Pacific Asia Conference on Knowledge Discovery and Data Mining, with most contributors and participants from the Pacific Asian region. The Pacific Asia Workshop on Intelligence and Security Informatics was then held in Chengdu (<http://isi.se.cuhk.edu.hk/2007/>) in 2007. These past ISI conferences have brought together academic researchers, law enforcement and intelligence experts, information technology consultant and practitioners to discuss their research and practice related to various ISI topics including ISI data management, data and text mining for ISI applications, terrorism informatics, deception and intent detection, terrorist and criminal social network analysis, public health and bio-security, crime analysis, cyber-infrastructure protection, transportation infrastructure security, policy studies and evaluation, information assurance, among others. We continue this stream of ISI conferences by organizing the 2008 Pacific Asia Workshop on ISI (PAISI 2008) in conjunction with IEEE International Conference on Intelligence and Security Informatics 2008. PAISI 2008 will provide a stimulating forum for ISI researchers in Pacific Asia and other regions of the world to exchange ideas and report research progress. The workshop also welcomes contributions dealing with ISI challenges specific to the Pacific Asian region.

Paper Submission/Areas of Interest

Submissions may include systems, methodology, testbed, modeling, evaluation, and policy papers. Research should be directly relevant to *both* informatics and national/international/societal security. Topics include but are not limited to:

I. Information Sharing and Data/Text Mining

- Intelligence-related knowledge discovery
- Criminal data mining and network analysis
- Criminal/intelligence information sharing and visualization
- Web-based intelligence monitoring and analysis
- Spatio-temporal data analysis/GIS for crime analysis and security informatics
- Deception and intent detection
- Cyber-crime detection and analysis
- Authorship analysis and identification
- Applications of digital library technologies in intelligence data processing, preservation, sharing, and analysis
- Agents and collaborative systems for intelligence sharing
- HCI and user interfaces of relevance to intelligence and security
- Information sharing policy and governance
- Privacy and civil liberties issues

II. Infrastructure Protection and Emergency Responses

- Public/animal health and bioterrorism information infrastructure
- Transportation and communication infrastructure protection
- Cyber-infrastructure design and protection
- Intrusion detection
- Border/transportation safety
- Emergency response and management
- Disaster prevention, detection, and management
- Communication and decision support for search and rescue
- Assisting citizens' responses to terrorism and catastrophic events

III. Terrorism Informatics

- Terrorism related analytical methodologies and software tools
- Terrorism knowledge portals and databases
- Terrorist incident chronology databases
- Terrorism root cause analysis
- Social network analysis (radicalization, recruitment, conducting operations), visualization, and simulation
- Forecasting terrorism
- Countering terrorism
- Measuring the impact of terrorism on society
- Measuring the effectiveness of counter-terrorism campaigns

Long (12-page) and short (6-page) papers following the Springer LNCS paper templates in English may be submitted electronically via the workshop Web site after December 1, 2007. Submission file formats are PDF, Microsoft Word, or LaTeX. We are in the process of making arrangements with Springer to publish accepted PAISI 2008 papers in its Lecture Notes in Computer Science (LNCS) series, as for WISI 2006 and PAISI 2007. Required LNCS Microsoft Word/LaTeX templates can be found on the workshop Website. Authors who wish to only present a poster may submit a 2-page extended abstract, which will be reviewed and will appear in the Proceedings if accepted.

Organizing Committee

Honorary Co-chairs

Hsinchun Chen, University of Arizona, USA
Fei-Yue Wang, Chinese Academy of Sciences

Workshop Co-chairs

Chris Yang, The Chinese University of Hong Kong
Daniel Zeng, University of Arizona, USA

Program Co-chairs

Kuiyu Chang, Nanyang Technological University, Singapore
Michael Chau, University of Hong Kong

Program Committee

Clive Best, Joint Research Centre, European Commission, Italy
Robert W. P. Chang, Criminal Investigation Bureau, Taiwan
Patrick S. Chen, Tatung University, Taiwan
Reynold Cheng, Hong Kong Polytechnic University
Yiuming Cheung, Hong Kong Baptist University
Vladimir Estivill-Castro, Griffith University, Australia
Eul Guy Im, Hanyang University, Korea
Kai Pui Lam, Chinese University of Hong Kong, Hong Kong
Wai Lam, Chinese University of Hong Kong, Hong Kong Mark
Last, Ben-Gurion University of the Negev, Israel
Ickjai Lee, James Cook University, Australia

You-lu Liao, National Central Police University, Taiwan
Ee-peng Lim, Nanyang Technological University, Singapore
Duen-Ren Liu, National Chiao-Tung University, Taiwan
Hongyan Liu, Tsinghua University, China
Xin Robert Luo, Virginia State University, USA
Anirban Majumdar, University of Auckland, New Zealand
Byron Marshalls, Oregon State University, USA
Jialun Qin, The University of Massachusetts, USA
Dimitri Roussinov, Arizona State University, USA
Raj Sharman, State University of New York, Buffalo, USA
David Skillicorn, Queen's University, Canada

Aixin Sun, Nanyang Technological University, Singapore
Alan Wang, Virginia Tech University, USA
Fu Lee Wang, City University of Hong Kong, Hong Kong
Jau-Hwang Wang, National Central Police University, Taiwan
Shiuh-Jeng Wang, National Central Police University, Taiwan
Chih-Ping Wei, National Tsinghua University, Taiwan
Jennifer Xu, Bentley College, USA
Justin Zhan, Carnegie Mellon CyLab, Japan
Yilu Zhou, George Washington University, USA
William Zhu, The University of Auckland, New Zealand,
